Results-driven Senior Data Scientist and Generative AI Solution Architect with **7+ years** of experience building intelligent, scalable AI systems. Specializing in agentic AI platforms, LLM-powered automation, RAG architectures, and Text-to-SQL solutions. Proven track record of delivering measurable business value — including a **~€6M/quarter** sales funnel and data-driven insights impacting **€19M** in open opportunities. Currently leading GenAI platform architecture at **Fractal** for a global healthcare client.

TECHNICAL SKILLS

GenAI & LLMs	LLMs · RAG · Multi-Agent Systems · Agentic Workflows · Text-to-SQL · Prompt Engineering · LLM Evaluation · Tool/Function Calling	Machine Learning	Deep Learning · NLP/Transformers · Computer Vision · MLOps · Feature Engineering · Fraud Detection · Time Series
Languages & Libs	Python · SQL · PySpark · LangChain · LangGraph · FastAPI · Flask · Streamlit · OpenAI SDK · MCP · Google ADK	Cloud & Data	Azure · Azure OpenAI · Databricks · Docker · PostgreSQL · MongoDB · Redis · ChromaDB · FAISS · Azure AI Search · Git · CI/CD

PROFESSIONAL EXPERIENCE

Senior Data Scientist

Fractal · Gurugram, India

Apr 2025 — Present

- Leading end-to-end architecture of a centralized GenAI platform for a global healthcare client, supporting multiple Commercial IT use cases
- Building scalable agentic Text-to-SQL and RAG pipelines with modular MCP-server components
- Driving cross-domain collaboration, technical mentorship, and GenAI capability development across the organization

Multi-Agent Systems

RAG

LangGraph

MCP

Text-to-SQL

OpenAI Agents SDK

Data Scientist

Fractal · Gurugram, India

Dec 2021 — Mar 2025

- Developed a customized Text-to-SQL framework using LangGraph for conversational insights from enterprise data
- Built a scalable CLV program integrating multi-system enterprise data — generated a new sales funnel valued at **~€6M/quarter**
- Delivered critical data reports impacting **€19M** in open sales opportunities
- Designed 3D analytical framework optimizing trade-in strategies for medical equipment across AU/NZ markets

LangChain

PySpark

Azure

Databricks

CRM Analytics

Machine Learning Team Lead

Cognam Technologies Pvt. Ltd.

Aug 2021 — Dec 2021

- Led a team of 5 engineers developing an identity resolution system for transactional data
- Guided a project leveraging image captioning and RL to automate conversion of UI mockups into HTML/CSS

Team Leadership

Identity Resolution

Reinforcement Learning

NLP

Machine Learning Engineer

Cognam Technologies Pvt. Ltd.

May 2019 — Jul 2021

- Developed and deployed a face recognition system to optimize authentication workflows
- Built a spoof detection model using image distortion analysis to prevent photo/video-based attacks
- Designed an ensemble ML model for fraud detection with automated retraining and performance monitoring

Computer Vision

Flask

Fraud Detection

Face Recognition

Software Engineer Trainee

Cognam Technologies Pvt. Ltd.

Jan 2019 — May 2019

- Conducted data analysis on financial transaction datasets to identify fraud patterns
- Applied feature engineering and ML techniques (logistic regression, decision trees, random forests) for predictive fraud detection

Python

Scikit-learn

Feature Engineering

SQL

KEY PROJECTS

Centralized GenAI Platform — Global Healthcare Client

End-to-end agentic AI platform with modular MCP-server components, scalable Text-to-SQL and RAG pipelines supporting multiple Commercial IT use cases.

Customer Lifetime Value Engine — Medical Equipment

Scalable CLV program integrating multi-system enterprise data; generated a new upsell sales funnel worth ~€6M per quarter.

Fraud Transaction Detection System

Ensemble ML model with automated retraining, feature engineering pipeline, and continuous performance monitoring.

Face Recognition & Spoof Detection

Authentication system with spoof detection using image distortion analysis to prevent photo and video-based attacks.

EDUCATION & CERTIFICATIONS

B.Tech — Information Technology

IIIT Vadodara

[graduation year]

- › Machine Learning Advanced Nanodegree
- › 12+ research publications & articles
- › [Add more certifications]

ML Advanced Nanodegree
